April 5, 1982

Before the Atomic Safety and Licensing Board

RELATED CORRESPONDENCE

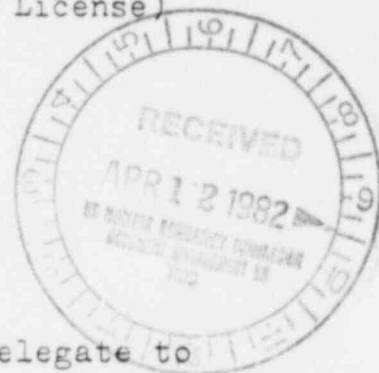

In the Matter of)

CLEVELAND ELECTRIC ILLUMINATING)
COMPANY, Et Al.)

(Perry Nuclear Power Plant,)
Units 1 and 2))

Docket Nos. 50-440
50-441
(Operating License)

OCRE MISCELLANEOUS FILINGS

I. VISIT TO CONTROL ROOM SIMULATOR

OCRE regrets that it was unable to send a delegate to the March 8, 1982 visit to the GE Control Room Simulator in Tulsa, Oklahoma. Unfortunately, economic factors precluded OCRE's attendance.

OCRE would be interested in obtaining any observations, reports, and/or findings made by the Board or NRC Staff during the simulator visit. While written accounts are obviously a poor substitute for personal observation, OCRE nonetheless is interested in learning what occurred during the simulator demonstration.

II. ACRS MEETING ON PERRY

OCRE has sent the enclosed letter to the ACRS, expressing a desire to attend the forthcoming meeting on the Perry Nuclear Power Plant, tentatively to be held in Cleveland. OCRE has requested that the meeting be held in Cleveland, as this would be more convenient to OCRE members and to the general public.

III. NRC INSPECTION TEAM TO VISIT PERRY

OCRE has learned, through the news media, that the NRC

DSO3
3
1/0

intends to send a four-member inspection team to the Perry site sometime in April to investigate, among other things, the training of workers and inspectors and the handling of non-conformance reports.

OCRE would like to know if any portions of this inspection are open to the public; if so, OCRE would be interested in attending. OCRE would appreciate it if the Applicant or NRC Staff could send a schedule of the inspection, with those portions open to the public clearly designated, to the undersigned.

If, for some reason, public attendance is not permitted (or if OCRE is unable to attend), OCRE would like to receive a report of the inspection team's findings.

Respectfully submitted,

Susan L. Hiatt
OCRE Interim Representative
