Dear Mr. Schwencer:

River Bend Station-Units 1 & 2
Docket Nos. 50-458/50-459

Your letter of February 19, 1982 requested a site visit for the NRC structural engineering staff to audit certain reactor plant structural areas. May 5, 1982 has been established for a site visit to include an introduction, overview, and site tour. However, we would schedule the specific audit subjects to be discussed in Stone & Webster's Cherry Hill Operations Center during the period of May 11-13, 1982. Please let us know if these dates are acceptable and provide a more detailed agenda to identify your specific concerns.

Sincerely,

William J. Booker
