Reference: Docket 50-112

Subject: Resubmission of Renewal of
License R-53

Dear Mr. Miller:

We are enclosing materials required to obtain a twenty year renewal of Reactor License R-53 for the AGN-211P operated by the University of Oklahoma.

The attached Safety Analysis Report is the final segment required under the license renewal procedure. We do regret the necessity of sending the material to you in pieces.

We appreciate your assistance and will hope for the earliest possible NRC review of the license application.

Very truly yours,

C. W. Terrell
