

UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION

BEFORE THE ATOMIC SAFETY AND LICENSING BOARD

82 MAY -3 P3:50

In the Matter of
LONG ISLAND LIGHTING COMPANY
(Shoreham Nuclear Power Station,
Unit 1)

Docket No. 50-322 O.L.

REPORT ON CONFIDENTIALITY OF STONE AND WEBSTER DOCUMENTS
AND MOTION FOR EXTENSION OF TIME TO REPORT ON USE
OF STONE AND WEBSTER QUALITY ASSURANCE DOCUMENTS

By its Order Regarding Interim Confidentiality of Certain Stone and Webster Documents, dated April 7, 1982, the Licensing Board granted interim confidentiality to certain designated documents of the Stone and Webster Engineering Corporation ("Stone and Webster"). Except for document No. 6 identified in Attachment A to that Order, these documents relate to the quality assurance contentions (SC 12-15); document 6 relates primarily to SC 27.*

The Board ordered that on or before May 4, 1982, Suffolk County should designate what portions, if any, of the Stone and Webster documents it wishes to utilize in this proceeding. By the same date, Stone and Webster is to designate those portions of the documents listed by the County which it desires to keep confidential.

* Suffolk County counsel understand that document 7 does not exist and that document 6, a Stone and Webster specification for its radiation monitoring system, contains all the available data. It is noted that document 6 also relates to QA matters and to emergency preparedness concerns.

DS03
s
111

Suffolk County desires to use all of document 6 in its SC 27 testimony or in cross-examination of LILCO and Staff testimony on that contention. The County may also use the document on SC 12-15 and on emergency preparedness matters.

With respect to the remaining documents, Suffolk County moves the Board to postpone until May 25, 1982, the filing presently scheduled for May 4, 1982. The May 4 filing date was appropriate when the quality assurance testimony (Suffolk County Contentions 12-15) was due to be filed on May 25, 1982. However, by the Board's Prehearing Conference Order, dated April 20, 1982 and by the parties' joint submission dated April 27, 1982, it is now established that the Quality Assurance testimony will not be submitted until June 22, 1982. This revision in the schedule has resulted in Suffolk County consultants directing their primary attention to other issues and contentions, with less direct attention being directed to the Quality Assurance contentions. Accordingly, Suffolk County needs additional time to designate with finality those portions of the Stone and Webster QA documents that it desires to utilize in this proceeding.

The undersigned counsel has spoken with counsel for Stone and Webster, who agrees that the deferral described above

3.

is appropriate. LILCO counsel and NRC Staff counsel also have no objection to this deferral.

Respectfully submitted,

DAVID J. GILMARTIN
