In re: Long Island Lighting Company
(Shoreham Nuclear Power Station,
Unit 1), Docket No. 50-322 O.L.

Dear Administrative Judges:

On behalf of Stone and Webster Engineering Corporation (S&W), and pursuant to the Board's Interim Confidentiality Order of April 7, 1982 in the above-referenced proceedings, we hereby respond to Suffolk County's (SC) Report on Confidentiality of Stone and Webster Documents and Motion for Extension of Time to Report on Use of Stone and Webster Quality Assurance Documents, dated April 29, 1982.

SC's Report and Motion designated Document 6 as one it desires to utilize in the above-captioned proceedings. In accordance with the Board's Order, S&W was to designate those portions, if any, of Document 6 which it desires to withhold from public disclosure. I am authorized to state that, although Document 6 was developed from S&W proprietary information, S&W will not seek to withhold it from public disclosure.

S&W agrees with SC's request to defer designation of those portions of the S&W Quality Assurance Documents that it desires to utilize in the above-referenced proceeding. I am advised by counsel for SC that we will receive sufficient

advance notice of that designation to permit S&W to simultaneously identify which parts, if any, of the designated portions it believes should be withheld from public disclosure. I further understand that, pursuant to paragraph 3 of the Board's Order, S&W will have the opportunity to file papers seeking confidentiality for any documents so identified on a schedule to be established by the Board.

I would appreciate it if the Board and all parties would address all future writings concerning the S&W documents to me and to Robert Orem, Esq., Assistant General Counsel, Stone & Webster Engineering Corporation, P. O. Box 2325, Boston, Massachusetts 02107.

Respectfully submitted,

George L. Edgar
Attorney for
Stone & Webster
Engineering Corporation
