Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Subject: Crystal River Unit 3  
Docket No. 50-302  
Operating License No. DPR-72  
Security Plan Amendment per 10 CFR 50.54(p)

Dear Mr. Denton:

Florida Power Corporation's (FPC) current Modified Amended Security Plan (MASP) Revision 2 for Crystal River Unit 3 includes two sections on provisions for guard force training. Section 1.4.3, Guard Force Training Program, covers initial training requirements for the guard force, while Section 1.4.4, Retraining, covers subsequent training requirements. These training programs were recently upgraded and approved by your office as part of the new Crystal River Unit 3, Security Personnel Training and Qualification (T&Q) Plan. The T&Q Plan is to be fully implemented over the next two years as indicated in the implementation section of the plan.

In an effort to avoid confusion, FPC hereby submits five (5) sets of replacement pages for Sections 1.4.3 and 1.4.4 of the MASP, Revision 2 under the provisions of 10 CFR 50.54(p). This change deletes the provisions for guard training as given in those sections and replaces them with reference to the newly approved T&Q Plan. Reference copies of deleted Sections 1.4.3 and 1.4.4 will be maintained on file at the plant site for a period of two years or until the T&Q Plan is fully implemented.

We have determined that the attached revised pages contain Security Safeguards Information required to be protected against unauthorized disclosure in accordance with 10 CFR 73.21. Therefore, you are requested to handle these documents accordingly.

Very truly yours,

*David G. Mardis*

David G. Mardis  
Acting Manager  
Nuclear Licensing
