Mr. John T. Collins  
Regional Administrator, Region IV  
U. S. Nuclear Regulatory Commission  
611 Ryan Plaza Dr., Suite 1000  
Arlington, TX 76011

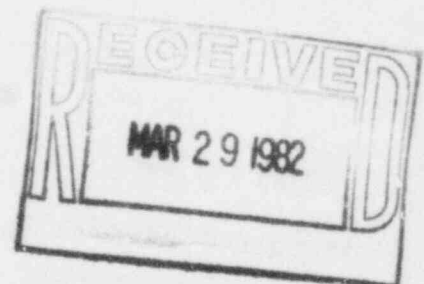

SUBJECT: Fort St. Vrain Unit No. 1  
Emergency Response Planning

Dear Mr. Collins:

In accordance with NUREG 0654, Item II.G., we have performed an annual update of public information issued to residents within the five (5) mile EPZ.

This year we conducted our survey in conjunction with the issuance of the early warning tone alert radios. As a part of our door-to-door delivery of the radios, we surveyed each household to determine if the residents/businesses still had the Radiological Emergency Booklet which we issued in March 1981. In those instances where the booklet was not retained or for some reason could not be readily located, we issued an abbreviated booklet, and at the same time, recorded the names and addresses of residents/businesses which required information replacement.

We have subsequently reprinted the booklet and will be sending out replacement copies the week of March 29, 1982.

-2-

We believe this action fulfills our annual update of the public information program.

Very truly yours,

  
Don W. Warembourg  
Manager, Nuclear Production  
Fort St. Vrain Nuclear  
Generating Station
