Director of Nuclear Reactor Regulation
Attention: Ms. E. Adensam, Chief
Licensing Branch No. 4
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Ms. Adensam:

In the Matter of) Docket Nos. 50-327
Tennessee Valley Authority) 50-328

- References: 1. D. G. Eisenhower's letter dated December 22, 1980
regarding NUREG-0612, Control of Heavy Loads at
Nuclear Plants
2. D. G. Eisenhower's letter dated February 3, 1981
regarding Control of Heavy Loads (Generic Letter 81-07)

In response to the above referenced letters which requested information on Control of Heavy Loads for Sequoyah Nuclear Plant, we submitted a letter dated March 1, 1982 which provided our response to Section 2.1 of Enclosure 3 to References 1 and 2. We anticipated supplying the remainder of the requested information by May 1, 1982. Because of the complexity of the in-depth studies and the amount of effort required, we are unable to provide the information at this time. We anticipate providing the remaining information for Sections 2.2, 2.3, and 2.4 of Enclosure 3 to References 1 and 2 by December 10, 1982. However, procedures and instructions required to comply with the interim guidelines of NUREG-0612 have been implemented.

If you have any questions regarding this subject, please call Jerry Wills at FTS 858-2683.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

L. M. Mills
