Subject: Alternate Safe Shutdown System

Dear Sir:

As a result of our telecon of November 18, 1981, we were informed there may be questions relative to our proposed alternate safe shutdown system [Reference (b)]. We are currently awaiting formal transmittal of these questions which is essential if we are to respond within the appropriate time frame. Further delay in this area may impact our schedule for design and installation of this system.

Please provide us with a formal notification of any outstanding questions on our submittal as soon as possible so that this work may proceed on schedule.

Very truly yours,

VERMONT YANKEE NUCLEAR POWER CORPORATION
