Docket Nos. 50-400 OL  
50-401 OL

(Shearon Harris Nuclear Power Plant,  
Units 1 and 2)

REQUEST FOR EXTENTION OF PERIOD  
FOR FILING CONTENTIONS

Because of unexpected demands of my practice, the closure of the LPDR from May 3 - May 9, the unavailability of many documents, and new issues of contention arising, I request an extention of 60 days in which to file specific contentions as supplements to my petition to intervene. I believe that the general description of my contentions in my petition should qualify me to become a party to the proceeding without further amplification.

Please respond to this request by telephone if possible. A message may be left at my work number.
