Re: In re Long Island Lighting Company  
(Shoreham Nuclear Power Station,  
Unit 1) Docket No. 50-322 (O.L.)

Dear Judge Brenner:

As you requested on May 7, 1982, we have reviewed Exhibit 2 to the Addendum to Testimony of Marc W. Goldsmith on Behalf of Suffolk County Regarding Suffolk County Contention 4 - Water Hammer. That document is the "Compilation of Data Concerning Known and Suspected Water Hammer Events in Nuclear Power Plants," Preliminary Draft dated April 1982, prepared by EG&G Idaho, Inc. We will move that the entire document be admitted into evidence with the exception of:

- (a) the section entitled "PWR Non-Steam Generator Events";
- (b) the section entitled "PWR Steam Generator Events";
- (c) Appendix B (PWR Non-Steam-Generator Events); and
- (d) Appendix C (PWR Steam Generator Events).

Accordingly, those two sections and two Appendices can be deleted from the copy of the document which was attached to the Addendum.

Sincerely,

  
Karla J. Letsche
