Re: Docket 50-322-OL

Dear Mr. Brenner:

Enclosed is a written copy of the verbal testimony which I presented on April 14, 1982 before the panel of the ASLB which you chair.

Although it follows the draft which I submitted at that time, I have had the opportunity subsequently to make a few editorial corrections and to include some references. So I would appreciate it if this final version could be substituted for that earlier imperfect draft.

Yours truly,

Andrew P. Hull
