Skagit/Hanford Nuclear Project, Units 1 & 2
Docket Nos ~~50-521~~ and ~~50-522~~ **50-522 & 50-523**
RHO-LD-158 Publication

Dear Mr. Mallory:

Enclosed for the Nuclear Regulatory Commission's use are five copies of the publication entitled "A Catalog of Borehole Lithologic Logs from the 600 Area, Hanford Site" by K. R. Fecht and J. T. Lillie (RHO-LD-158). This publication is a compilation of Hanford boring data prepared by Rockwell Hanford Operations for their internal use. It is also the basis for the Rockwell boring locations which were presented on map overlays at our meeting with the NRC on April 27, 1982.

Very truly yours,

F. A. Spangenberg

F. A. Spangenberg
Assistant Project Manager,
Nuclear
