Mr. James P. O'Reilly, Director, Region II
Office of Inspection and Enforcement
U. S. Nuclear Regulatory Commission
101 Marietta Street, Suite 3100
Atlanta, Georgia 30303

Dear Mr. O'Reilly:

Re: St. Lucie Unit #2
Docket No. 50-389, 50.55(e)
Steam Generator 2A - One Inch Nozzles

As previously reported on February 17, 1982, Florida Power and Light Company (FPL) notified the Region II Office of Inspection and Enforcement, in accordance with the requirements of 10 CFR 50.55(e), of a potential deficiency regarding steam generator 2A one inch nozzles. An interim deficiency report submitted to you on March 10, 1982 stated that a final report would be issued on May 17, 1982. Florida Power and Light Company is still reviewing this problem to confirm whether it is a reportable deficiency under the regulations. We expect to be able to submit a final report by June 17, 1982.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems and Technology

REU/RAK/ga

cc: Harold F. Reis, Esquire
Director of Inspection and Enforcement
