FREEDOM OF INFORMATION
ACT REQUEST

FOIA-81-516

Rec'd 12-29-81

Re: FREEDOM OF INFORMATION ACT REQUEST

Dear Sir/Ms.,

Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552, as amended, and the provisions of 10 CFR Part 9, the undersigned hereby requests the following items:

1. any studies or documents concerning the susceptibility of boiling water reactor pressure vessels to the pressurized thermal shock phenomenon identified in PWRs.
2. Commission decision of June 29, 1981, CLI-81-?, ? NRC ?, (exact citation unknown), Duke Power Company (William B. McGuire Nuclear Station, Units 1 and 2).
3. SECY-80-107 "Proposed Interim Hydrogen Control Requirements for Small Containments"
4. SECY-80-107A "Additional Information Re: Proposed Interim Hydrogen Control Requirements"
5. SECY-81-245 "Interim Amendment to 10 CFR Part 50 Related to Hydrogen Control and Certain Degraded Core Considerations"
6. NUREG-0772 "Technical Bases for Estimating Fission Product Behavior During Light-Water Reactor Accidents" March 1981
7. NUREG-0465 "A Transportation Security Personnel Training Manual" (latest edition)
8. SECY-80-409, Sept. 4, 1980, and SECY-80-409C, Nov. 7, 1980. Proposed rulemaking on ATWS.
9. NRC Branch Technical Position CSB6-2, "Control of Combustible Gas Concentrations in Containment Following a LOCA"
10. NUREG/CR-0913 "Generation of Hydrogen During the First Three Hours of the Three Mile Island Accident" Oct. 1979
11. NUREG/CR-1561 "The Behavior of Hydrogen During Accidents in Light Water Reactors" Oct. 1980
12. NUREG/CR-1575 "Hydrogen-Mixing in a Closed Containment Compartment Based on a One-Dimensional Model" Sept. 1980
13. any documents concerning the use of in-core thermocouples in BWRs, particularly in BWR/6 reactors.

This requester asks that fees for the search and production of the above documents be waived, in accordance with 10 CFR 9.14a, for the following reasons:

1. This information will be disseminated to the general public through newsletters, press releases, and other media; the "public" benefiting thereby includes but is not limited to the population of Northeast Ohio.
2. By the availability of this information the public will be better informed on nuclear safety issues and this will therefore enhance the quality of public debate on these issues. Public debate on these matters crucial to public health and safety and the quality of the environment is imperative.
3. This information will be used in a proceeding currently before the Atomic Safety and Licensing Board: In the Matter of Cleveland Electric Illuminating Co., et al., Perry Nuclear Power Plant, Units 1 and 2, Docket Nos. 50-440/441. Upon this requester's review and analysis of the requested documents, they will be used by intervenors in this case; these intervenors will thereby be better able to protect their health, safety, and environmental interests (and those of the general public) in this proceeding.
4. This requester expects no financial benefit from the use of these documents.
5. The financial resources of this requester are limited; thus, the payment of fees incurred herein would result in an undue hardship.

These factors clearly indicate that furnishing the documents requested herein will benefit the general public, and therefore the waiver of any and all fees for search and production is appropriate.

Thank you for your assistance.

Sincerely,

Susan L. Hiatt
