

Wisconsin Electric POWER COMPANY

231 W. MICHIGAN, P.O. BOX 2046, MILWAUKEE, WI 53201

May 26, 1982

Mr. H. R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. NUCLEAR REGULATORY COMMISSION
Washington, D. C. 20555

Attention: Mr. D. G. Eisenhut, Director
Division of Licensing

Gentlemen:

DOCKET NOS. 50-266 AND 50-301
RESPONSE TO GENERIC LETTER 82-10
POST-TMI REQUIREMENTS
POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2

Mr. Eisenhut's letter of May 5, 1982 to all operating power reactor licensees enclosed a listing of those NUREG-0737 items not previously addressed in the NRC's March 17, 1982 letter and requested schedule commitments to implement those items. In those cases where a licensee's schedule extended beyond the NUREG-0737 schedule, licensees were further requested to provide a justification for the schedule and a description of compensatory measures being taken in the interim.

On April 26, 1982, in response to the March 17 NUREG-0737 schedule letter, Wisconsin Electric submitted an updated schedule requirements and implementation status letter for all of the NUREG-0737 items. That letter addresses each of those items identified in the enclosure to your May 5 letter. However, for your convenience, we have prepared a separate listing as an attachment to this letter which reconfirms, and in a few cases further updates, the information which has been previously provided to you.

My Commission expires *July 1, 1984*

ATTACHMENT

NUREG-0737 ITEMS SCHEDULED AFTER MARCH 1, 1982

<u>Item</u>	<u>Wisconsin Electric Schedule</u>	<u>Discussion</u>
I.A.1.3.1, Limit Overtime	September 1, 1982	The PBNP approved procedure will be revised to reflect the policy statement issued with Generic Letter 82-02.
I.A.1.3.2, Minimum Shift Crew	---	The schedule and discussion for this item has been provided in a separate letter to Mr. Eisenhut dated May 19, 1982.
I.C.1, Revised Emergency Procedures	To Be Determined	Although the schedule for revised emergency procedures promulgated in NUREG-0737 required implementation by the first refueling after 1/1/82, we understand that the Commissioner's are presently considering a revised implementation schedule for this item under the topic of SECY 82-111, "Requirement for Emergency Response Capabilities". Apparently, Commission action on this document is scheduled for June 1982. We will respond to the results of this Commission action when the revised implementation schedule has been published.
I.D.1, Control Room Design Review	To Be Determined	No reply requested at this time. See Note I.D.1 to April 26, 1982 letter.
I.D.2, SPDS	March 1, 1984	No reply requested. PBNP schedule is projected based on timely delivery of equipment.

<u>Item</u>	<u>Wisconsin Electric Schedule</u>	<u>Discussion</u>
II.B.1, RCS Vents	January 1, 1984	No reply requested. Note II.B.1 enclosed with our April 26, 1982 letter explains this item further.
II.B.2.3, Plant Shielding Environmental Qualification	January 1, 1984	No reply requested. Note II.B.2.3 enclosed with our April 26, 1982 letter explains this item further
II.D.1.2, RV and SV Test Program	July 1, 1982	As discussed in Wisconsin Electric's letter to Mr. Denton dated April 8, 1982, in accordance with the NRC's letter dated September 29, 1981, the plant-specific final evaluation shall be submitted by July 1, 1982.
II.D.1.3, Block Valve Test Program	Not Applicable	Reports are to be provided to the NRC later this year that justify and substantiate the decision that a block valve test program is not necessary.
II.F.2, Instrumentation for Inadequate Core Cooling	January 1, 1984	No reply requested. PBNP schedule is projected based on timely delivery of equipment.
II.K.3.30 and 3.31, SB LOCA Analysis	To Be Determined	See discussion in notes II.K.3.30 and II.K.3.31 provided with our April 26, 1982 letter.
III.A.1.2, Staffing for Emergencies	---	The schedule and discussion for this item has been provided in a separate letter to Mr. Eisenhower dated May 19, 1982.

<u>Item</u>	<u>Wisconsin Electric Schedule</u>	<u>Discussion</u>
III.A.1.2, Upgrade Emergency Support Facilities	---	The schedule and plans for meeting the requirements of this item have been provided previously. The table with our April 26, 1982 letter lists these references.
III.A.2.2, Meteorological Data	---	The schedule and plans for this item have previously been provided with our letter to Mr. Denton dated December 29, 1981.
III.D.3.4, Control Room Habitability	January 1, 1983	Additional information is provided in note III.D.3.4 provided with our April 26, 1982 letter.
