Subject: USNRC IE Region I Letter, dated March 15, 1982
RE: Site Inspection of February 1-28, 1982
Inspection Report No. 50-352/82-04 and 50-353/82-03
Limerick Generating Station - Units 1 and 2

Reference: J. S. Kemper (PECO) Letter to R. C. Haynes (NRC), dated
April 14, 1982

File: QUAL 1-2-2 (352/82-04 and 353/82-03)

Dear Mr. Haynes:

In the referenced response, PECO indicated that the detailed implementation of the procedural modification was being tested prior to formalization. The modified procedure has now been successfully implemented for approximately a month in the Reactor Building for the installation of large pipe hangers. We are now preparing to formalize and implement the modified procedure in all areas of the plant for safety related large pipe hanger installations by June 15, 1982.

Should you have any questions regarding this information, we would be pleased to discuss them with you.

Sincerely,

John S. Kemper
