Dear Mr. O'Reilly:

L. M. Mills' letter to you dated November 24, 1981 transmitted our interim response to Unresolved Item (259/81-01-09, 260/81-01-09, 296/81-01-09) regarding corrective actions taken in response to the 1980 Triennial Fire Protection Audit conducted by Professional Loss Control, Incorporated (PLC). This response indicated that certain items of the PLC audit were being analyzed by the Division of Engineering Design and that appropriate action based upon the results obtained from this analysis would be taken. The analysis associated with these items is being conducted in conjunction with the analysis required for compliance with 10 CFR 50, Appendix R, Section III G.

TVA has committed to submit the Appendix R analysis to NRC-NRR by June 1, 1982. We expect to submit final responses to the referenced PLC audit items by June 21, 1982. This matter was discussed with W. H. Miller of your office by telephone conference on March 16, 1982. If you have any questions regarding this matter, please call Jim Domer at FTS 858-2725.

To the best of my knowledge, I declare the statements contained herein are complete and true.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
