In the Matter of  
Wisconsin Electric Power Company  
(Point Beach Nuclear Plant, Units 1 and 2)

Dear Administrative Judges:

Enclosed are copies of the "Point Beach Steam Generator Sleeving Report, WCAP-9960, Revision 1 (Proprietary) (Reprint)." The enclosed reprint replaces the original document which Licensee provided to the Board and the parties by letter dated March 12, 1982. As explained in the March 19, 1982 letter to the Board from counsel for Westinghouse Electric Corporation ("Westinghouse"), the material considered proprietary was marked incompletely in the original document. The enclosed reprint completely marks such information. In addition, the reprint corrects one typographical error in the original document;

on page 6.32, at line 3 of Issue 2, the word "percent" in the original document has been corrected to "pounds" in the reprint. In all other respects, the reprint is identical to the original document.

Westinghouse, which prepared the enclosed report, considers much of it to be proprietary information, and has requested that it be withheld from public disclosure in accordance with 10 C.F.R. § 2.790. That application is attached. The information considered proprietary has been designated as such in the enclosed reprint by brackets, with reference to the affidavits filed in support of the request for withholding from public disclosure submitted with the "Point Beach Steam Generator Sleaving Report for Wisconsin Electric Power Company, WCAP-9960 (Proprietary)." A non-proprietary version of the enclosed reprint will be provided to Docketing and Service in the near future, for placement in the Public Document Room.

Postage prepaid envelopes are enclosed for the return to Westinghouse of the original document provided by letter dated March 12, 1982.

Respectfully submitted,

SHAW, PITTMAN, POTTS & TROWBRIDGE
