Mr. Dennis M. Crutchfield, Chief
Operating Reactors Branch #5
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Crutchfield:

Subject: NUREG-0737, Item II.F.1.3 Containment
High-Range Radiation Monitor

The purpose of this letter is to provide you with additional information on the calibration of our Containment High-Range Radiation Monitor as requested by your letter of February 25, 1982.

We are currently in the process of trying to arrange with the supplier of the monitor (Victoreen) for a Field Calibration Kit which monitors to 10 R/hr with a calibrated radiation source. It is our understanding that this kit is not yet readily available. We plan to pursue this subject further and will keep you informed of our status on this matter.

If you should have any further questions, please contact Mr. James Knubel, Manager, BWR Licensing at (201) 299-2264.

Sincerely,

P. B. Fiedler
Vice President & Director
