Mr. Robert L. Tedesco
Assistant Director for Licensing
Division of Licensing
Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Tedesco:

On April 16, 1982, we received your letter confirming a prior telephone discussion with my staff regarding emergency treatment to rectify minor damage to site 16 EBR 52, Port Hudson Battlefield, Louisiana, a designated National Historic Landmark. Because inspection of the property by the Louisiana State Archeologist and the project archeologist confirms that damage from equipment backing over the toe of the earthenwork is minor, we agree with the recommendations of the archeologists that installation of a fabric mesh and reseeding of the impacted area is an appropriate action to prevent erosion of the site. We do not believe further action is warranted or necessary.

Thank you for promptly notifying the Council of the situation and the steps taken to rectify the problem. The cooperation of NRC is appreciated.

Sincerely,

for 
Louis S. Wall
Chief, Western Division
of Project Review
