IE Inspection Report of

AECM-82/113

Reference: MAEC-82/046, 2/25/82

This letter provides our response to NRC Violation 416/82-08-01 as transmitted by your letter MAEC-82/046, dated February 25, 1982.

I. ADMISSION OR DENIAL OF THE ALLEGED VIOLATION

Mississippi Power and Light Company admits to the alleged violation in that no formal inspection and maintenance program was being performed on hose stations or fire extinguishers.

II. REASON FOR THE VIOLATION

The implementation of Inspection and Maintenance procedures was to have commenced after the installation of permanent fire extinguishers.

This was to occur approximately sixty days prior to fuel load. However, only permanent hose stations and temporary fire extinguishers were placed because the installation of permanent fire extinguishers had not been completed.

III. CORRECTIVE ACTIONS TAKEN AND RESULTS ACHIEVED

Procedures 07-S-24-P64-31, Auxiliary Building Fire Extinguisher Inspection, and 06-OP-SP64-M-0015, Unit 1 Fire Hose Station Check, have been implemented and results achieved were satisfactory.

IV. CORRECTIVE STEPS TAKEN TO AVOID FURTHER VIOLATIONS

The procedures listed in Item III. will continue to be implemented and documented.
