Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Subject: Crystal River Unit 3  
Docket No. 50-302  
Operating License No. DPR-72  
Security Plan Amendment per 10 CFR 50.54(p)

Dear Mr. Denton:

Florida Power Corporation (FPC) notified your office by letter dated May 3, 1982, of our intention to make certain changes to our current Modified Amended Security Plan (MASP) Revision 2 per 10 CFR 50.54(p). In answer to certain questions raised by your office on that submittal, FPC hereby submits this response which supersedes the May 3 submittal.

FPC's current MASP Rev. 2 for Crystal River Unit 3 includes two sections on provisions for guard force training. Section 1.4.3 Guard Force Training Program, covers initial training requirements for the guard force, while Section 1.4.4, Retraining, covers subsequent training requirements. These training programs were recently upgraded as part of the new Crystal River Unit 3 Security Personnel Training and Qualification (T&Q) Plan.

In an effort to avoid confusion, FPC hereby submits five (5) sets of replacement pages for Sections 1.4.3 and 1.4.4 of the MASP, Revision 2 under the provisions of 10 CFR 50.54(p). This change deletes the provisions for guard training as given in those sections and replaces them with reference to the new T&Q Plan.

The T&Q Plan is to be implemented over the next two years as indicated in the implementation section of the Plan. In the interim, guards will either:

- a) be qualified to the training requirements of MASP Rev. 2 Sections 1.4.3 and 1.4.4 (which will be maintained on file until the new T&Q Plan is fully implemented) and entered into the requalification program of the new T&Q Plan, or
- b) be qualified to the training requirements of the new T&Q Plan (in the case of new guards that are added to the force after training under the new T&Q Plan has commenced and that were not initially qualified under the provisions of the MASP Rev. 2).
