U.S. Nuclear Regulatory Commission  
Washington, DC 20555

OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

SERVED JUN 16 1982

Dear Mr. Kelley,

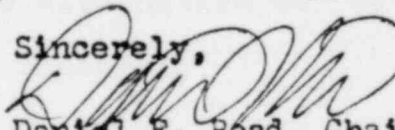

I am sorry that I was not at home on Friday June 6 to take part in the conference call. The decision reached as a result of that call is acceptable to me and to CHANGE/ELP. As I understand it, one of the items discussed was the use of the records of NRC decisions and ALAB decisions in preparing contentions and in understanding the legal definition and rulings on contentions.

In this respect I would like to ask you, and to formally so move if necessary (pursuant to 10 C.F.R. 2.718), that a copy of these record of decisions be placed in the temporary LPDR at the Chapel Hill Public Library. The University of North Carolina's main library, and its law library (both of which are extensive, first-rate collections) do not contain these materials. It would appear to me that if there is a copy available to the intervenors, that it would smooth many of the procedural problems with contentions. In addition, access to these materials will reduce headaches for the intervenors in understanding the procedures and legal aspects of further parts of the proceedings, and I would hope that this would reduce your work and generally smooth procedures as the docket progresses.

Although I am not certain of this, I would strongly suspect that the NRC legal staff has extra copies of these materials, and could probably part with a copy and no impairment to its ability to prepare for these and other proceedings. Therefore I would ask you to ask the NRC legal staff to forward a copy of the relevant materials to the Chapel Hill library.

Thank you very much for your help in this matter. Please contact me if you have any alternative suggestions.

Sincerely,

Daniel F. Read, Chairman CHANGE
