In the Matter of
The Regents of the University of California
(UCLA Research Reactor)
Docket No. 50-142
(Proposed Renewal of Facility License)

RE: COPYING OF PORTIONS OF CERTAIN OPERATING LOGS

Dear Mr. Cormier:

By letter of May 23, 1981, CBG requested copying of portions of certain operating logs it had reviewed at certain document production sessions.

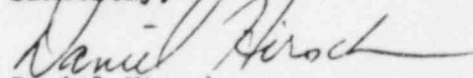

You replied in a letter dated June 4, 1981, that you intended "to defer copying the pages of the logs" until CBG had completed its review of those logs and presented you with a single integrated list of pages of the logs to be copied.

Our review of the logs through 1981 appears complete, and we therefore provide you with the requested integrated list of pages to be copied, attached.

We assume the University still has been unable to locate Volume I of the operating logs (as well as all pre-71 minutes of the Reactor Hazards Committee, the Project Planning Guide or design criteria for the Reactor Building, and "as-built" drawings more up-to-date than the ones we have already examined). If we are incorrect and any of the above documents have now been located, please so inform me.

Please let Steve Aftergood at our Los Angeles office know when the copying is complete and he will arrange to have the log copies picked up.

Sincerely,

Daniel Hirsch

Notes: For the 1978 log, the pages are numbered with the year as a prefix for each page--e.g., 78-33, 78-73, and so on. After the first page we identified to be copied, we dropped the prefix.

For the 1979 log, the pages are numbered with the year following the page number--e.g., 9-79, 15-79. After the first few pages we identified, we dropped the suffix.

For those two logs, there may be material on the back of a page--i.e., the front may be numbered 78-33, and the back have no number. Assume that we only want the front part of the page copied. There is only one exception, 78-171, where we want both sides copied. To make that clear, we have asked that 78-171 a and b be copied; i.e., both sides of the page.

The 1979 log to which we refer is the log that ends around October of 1979.

If you have any questions whatsoever, please call Daniel Hirsch at (408) 336-5381 or (213) 478-0829 to clarify the matter before proceeding to copy the material.

When the copies are ready, please contact Steve Aftergood at (213) 478-0829 to arrange for the documents to be picked up.

Please keep the copies for each volume separate, with a cover sheet identifying the log from which each came (i.e., identifying the log by number, if numbered, and by beginning and end date covered in the log).

Thank you.
