CONSOLIDATED EDISON'S CROSS EXAMINATION PLANS
FOR PROPOSED WITNESSES OF COUNTY OF ROCKLAND, NRC
STAFF, FEMA, AND STATE OF NEW YORK REGARDING ISSUES
RELATED TO COMMISSION QUESTIONS 3 and 4

INTRODUCTION

Pursuant to this Board's April 23, 1982 Order (p.22) Consolidated Edison (Con Edison), Licensee of Indian Point, Unit No. 2, hereby submits its cross examination plans for the captioned witnesses in this proceeding¹. While this filing represents Con Edison's current expectations regarding the areas into which it may inquire at the upcoming hearings, it is obviously impossible to foresee what course the cross examination by ourselves, the Power Authority, the other parties and the Board will take. Accordingly, Con Edison reserves the right to conduct additional cross examination beyond that indicated in the filed plans should such examination be warranted in our judgment by subsequent events.

1. The remaining intervenors in this case, Union of Concerned Scientists, New York Public Interest Research Group (UCS/NYPIRG), Rockland Citizens for Safe Energy (RCSE), Parents Concerned About Indian Point, West Branch Conservation Association (WBCA), Westchester People's Action Coalition, Inc.(WESPAC), and Friends of the Earth/New York City Audubon Society (FOE/Audubon), and one participant pursuant to 10CFR §2.715(c), the Attorney General of the State of New York, have collectively filed 157 separate pieces of proposed "testimony" which they apparently seriously intended to introduce as evidence in this proceeding regarding Commission Questions 3 and 4. In addition, they seek leave of this Board for the untimely filing of the testimony of an additional 14 witnesses. These submissions are addressed in a separate joint motion of Con Edison and the Power Authority of the State of New York, Licensee of Indian Point, Unit No. 3 for an order striking the proffered testimony, dated June 14, 1982. Pending the Board's ruling on that motion, Con Edison is not presently submitting cross examination plans dealing with any of the submissions referred to supra.

Further, the filing of these plans in no way constitutes a concession on the part of Con Edison that any of the filed testimony is admissible in evidence, and we reserve the right to make any objections available to us with regard to proffered testimony or any part thereof, including the right to make motions to strike all or any portion of each document sought to be offered as evidence by any party.
