

Federal Emergency Management Agency

Washington, D.C. 20472

50-244

26 MAY 1982

MEMORANDUM FOR: Brian Grimes
Director
Division of Emergency Preparedness
U.S. Nuclear Regulatory Commission

FROM: *Richard W. Krimm*
Richard W. Krimm
Assistant Associate Director
Office of Natural and Technological Hazards

SUBJECT: Evaluation of Offsite Radiological Emergency
Preparedness for the Ginna Nuclear Power
Station Exercise

Attached is a copy of the Post Exercise Assessment prepared by Region II of the Federal Emergency Management Agency (FEMA) for the Ginna Nuclear Power Station joint exercise held on January 21, 1982. This Post Exercise Assessment, dated February 12, 1982, reports on the exercise conducted by New York State, Wayne and Monroe Counties.

FEMA Region II furnished copies of the exercise report to New York State on March 2, 1982. However, the report did not contain any differentiation between major and minor deficiencies. FEMA Region II is in the process of negotiations with the State of New York on remedies for the deficiencies, including a schedule for corrective actions.

If you have any questions on this matter please contact Vernon E. Adler, Chief, Technological Hazards Division at 287-0200.
