Dear Jane:

In accordance with your request, I am enclosing a brief chronology tracing the ownership interests of Millstone 3 from inception to the present. You will note in the last footnote that the present percentage ownership interests do not take into account the transfers which have been authorized in Amendment Nos. 8 and 9 to the construction permit.

After you have had a chance to look over the enclosure, please let me know whether it is consistent with your understanding of the various transactions that have taken place. Assuming we reach a common understanding on who owns what, I would suggest that in the future references (usually in the footnotes) in amendments to the construction permit and in the related notices be revised to reflect the current status of the ownership interests.

Very truly yours,

Richard C. MacKenzie

(authorized by Amendment No. 8 to CPPR-113) or the transfer of a 1.0435% interest from Public Service Company of New Hampshire to Connecticut Municipal Electric Energy Cooperative (authorized by Amendment No. 9 to CPPR-113). Both of these transfers have been authorized by the Nuclear Regulatory Commission but await further regulatory approval prior to their consummation.

On June 30, 1982, it is expected that HELCO will merge into CL&P. Therefore, upon consummation of the merger, CL&P will succeed to HELCO's 18.2000% interest and will be responsible for making the transfer covered by Amendment No. 8 to CPPR-113.
