License No. DPR-51
NUREG-0737 Item III.D.3.4
Control Room Habitability

Gentlemen:

In our letter of April 29, 1982, (1CAN048209) we committed to propose ANO-1 Technical Specifications that will require chlorine detector operability similar to ANO-2. However, due to the time needed for our internal review and approval of Technical Specification changes, we now expect to submit these proposed Technical Specifications by July 16, 1982.

Very truly yours,

John R. Marshall
Manager, Licensing
