June 28, 1982

NUCLEAR PRODUCTION DEPARTMENT

U. S. Nuclear Regulatory Commission
Office of Nuclear Reactor Regulation
Washington, D. C. 20555

Attention: Mr. Harold R. Denton, Director

Dear Mr. Denton:

SUBJECT: Grand Gulf Nuclear Station
Unit 1
NPF-13
Docket No. 50-416
File: 0260/J-840.0
GGNS Environmental Qualification
AECM-82/298

In the operating license issued for Grand Gulf Nuclear Station; Unit 1, NPF-13, License Condition, 2 (C) (12), imposes a deadline for compliance by June 30, 1982, to complete environmental qualification requirements.

The Commission met on June 24, 1982, and approved an immediately effective interim rule suspending the June 30, 1982, deadline. This interim rule is reproduced below.

1. A new Section 50.49 is added to read as follows:

50.49 Environmental Qualification Schedules

The June 30, 1982, deadline for completion of environmental qualification of safety-related electric equipment, now contained in the technical specifications or license conditions⁽¹⁾ for all operating nuclear power plants, is hereby suspended pending publication of the final rule on qualification of such equipment.

It is Mississippi Power & Light's understanding this interim rule has been or will be published in the Federal Register prior to June 30, 1982 and relieves Grand Gulf Nuclear Station of the deadline date in Licensing Condition 2 (C) (12).
