JAMES P. McGAUGHY, JR.
ASSISTANT VICE PRESIDENT

U.S. Nuclear Regulatory Commission
Office of Nuclear Reactor Regulation
Washington, D.C. 20555

Attention: Mr. Harold R. Denton

Dear Mr. Denton:

SUBJECT: Grand Gulf Nuclear Station
File 0260/0765/0092
Application for Reactor
Operator and Senior
Reactor Operator Licenses
AECM-82/291

In letter dated May 14, 1982 (AECM-82/215), Mississippi Power & Light Company submitted applications for examination as Reactor Operator and Senior Reactor Operator.

The purpose of this letter is to correct erroneous information pertaining to the medical examinations (NRC Form 396) contained in Attachment 3 of the above referenced letter as discussed with your B. Lapp and members of our staff.

The method used to determine near visual acuity should be changed from Snelling to Jaeger No. 2. This change to this medical examination method and change to these records has been confirmed with the examining physician, Dr. D. M. Segrest, M.D. We regret this error and appreciate your patience in making this correction. If you require additional information, please contact this office.

Yours truly,

JPM:de
