Re: Docket 50-247, 50-286

Dear Sir:

This letter is to urge that hearings in the above matters, concerning the Indian Point facility, be scheduled at the earliest possible time. I would also like to request that the sessions be held during evening as well as daytime hours, so that I and other individuals with professional commitments during the day will be able to attend.

Please be advised that I may wish to make a statement at the hearings.

Kindly advise me as soon as the dates and locations of the hearings have been determined.

Very truly yours,

David B. Harris
