BRUNSWICK STEAM ELECTRIC PLANT, UNIT NOS. 1 AND 2
DOCKET NOS. 50-325 AND 50-324
LICENSE NOS. DPR-71 AND DPR-62
REQUEST FOR ADDITIONAL INFORMATION
ENVIRONMENTAL QUALIFICATION

Dear Mr. Vassallo:

By a letter dated May 3, 1982, the NRC requested that Carolina Power & Light Company (CP&L) provide to the Franklin Research Center (FRC) certain documents for review from CP&L's central file for Environmental Qualification of Electrical Equipment. As discussed with your staff, CP&L continues to believe that the most efficient and productive way to deal with this issue is to have a meeting with the NRC and FRC at the central file in Philadelphia. However, in the interest of expediting resolution of this issue, CP&L is providing, in accordance with your letter, a full submittal of the requested documents to FRC for their review. A listing of the information being provided is also enclosed (Enclosure 1).

With respect to information requested in Section B of the FRC document request listing (reference RFI-C5257-473), TMI Action Plan equipment will be addressed upon completion of installation in accordance with CP&L's

previous commitments under NUREG-0737. Any update information requested as part of IE Bulletin 79-01B would be submitted at that time.

If you have any questions concerning this subject, please contact our staff.

Yours very truly,

S. R. Zimmerman
Manager
