Honorable Nunzio Palladino
Chairman, Nuclear Regulatory
Commission
Washington, D. C. 20555

Dear Chairman Palladino:

I am concerned about the plans to develop the Clinch River Breeder Reactor. I am worried about what such a project will do to the environment.

While I have some familiarity with the old 1977 Environmental Impact Statement, I believe that this document needs to be supplemented to take into account the design changes and regulatory changes in the past five years. I urge you to require a supplement to the 1977 Environmental Impact Statement for Clinch River.

Please send me a copy of the supplement when it is prepared.

I appreciate your consideration of this matter.

Very truly yours,

Gary Flack
