Docket No. 50-454  
50-455

MOTION FOR A TIME EXTENSION

Commonwealth Edison Company ("Applicant") hereby moves the Atomic Safety and Licensing Board to enter an order granting a time extension until noon Monday, July 17, 1982, within which to file Applicant's response to the NRC Staff's June 7, 1982 motion for summary disposition. In support of the motion, Applicant states:

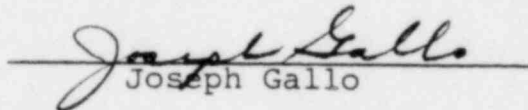

1. Applicant intends to file a response to the NRC Staff's motion for summary disposition with respect to only one sub-issue of DAARE/SAFE Contention 9, namely 9.c concerning the integrity of steam generator tubes. Applicants did not file for summary disposition on this issue and its views should be considered by the Licensing Board. Affidavits concerning Contention 9.c are under preparation with witnesses from Westinghouse Electric Corporation located in Pittsburgh, Pennsylvania. This effort is incomplete and counsel

needs the entire working day tomorrow to attempt to complete his consultation with the witnesses.

2. Applicant will deliver its response to the Licensing Board by messenger prior to noon on Monday, July 19, 1982. Service on the balance of the service list will be effected by mail. In view of the fact that a time extension has been granted to permit DAARE/SAFE to file its response by Express Mail on Monday, June 19, no prejudice will accrue to any party by the grant of Applicant's motion.
3. DAARE/SAFE has no objection to the motion. Counsel for the NRC Staff advises he has no objection provided the grant of the motion does not cause the Licensing Board to delay its ruling on this matter beyond July 22, 1982.

For good cause shown, Applicant's motion should be granted.

Respectfully Submitted,

  
Joseph Gallo
