(Operating License)

REQUEST FOR DISCOVERY CONCERNING ISSUE #5

Pursuant to 10 CFR 2.741, Intervenor Ohio Citizens for Responsible Energy ("OCRE") hereby serves Applicant with this request to permit entry upon the Perry site and into the Perry plant, Unit 1 (or Unit 2 if the particular structures to be inspected are more accessible there), for the purpose of visually inspecting and possibly measuring or photographing the following:

- (a) SDV/SDIV and its physical arrangement in relation to the suppression pool, containment, and the moisture, temperature, and radiation sensors described in the response to Interrogatory 2-5 (see Applicants' Answer to Ohio Citizens for Responsible Energy Second Set of Interrogatories to Applicants dated June 25, 1982)
- (b) HPCS pump room
- (c) LPCI (RHR) pump rooms
- (d) LPCS pump room
- (e) CRD pumps
- (f) CRD HCUs and associated piping

OCRE must conduct this inspection to have assurance that

said structures in the Perry facility are being constructed in accordance with the various drawings (referenced in Applicants' Answer to OCRE Second Set of Interrogatories) recently inspected by OCRE.

OCRE tentatively proposes that this inspection be conducted on Saturday, September 11, 1982 at 10:00 AM, or at any other date or time which would be more convenient to Applicant or any other interested parties.

OCRE expects that Applicant will respond to this request within 30 days of service, as provided by 10 CFR 2.741(d), and that said response will either permit this inspection or object to same, with reasons for objection specified.

Respectfully submitted,

Susan L. Hiatt
OCRE Representative
8275 Munson Rd.
Mentor, OH 44060
