Consolidation - Status of Operator Licenses

Dear Gentlemen:

The purpose of this letter is to provide notification of change in operator status per 10CFR50.74 due to Entergy Corporation consolidating the operation of all its nuclear generating facilities, including Waterford 3, under one company, Entergy Operations, Inc. As indicated in our June 6, 1990 letter (copy attached) to the NRC, the management change officially became effective on June 6, 1990. In this regard, there is a continued need for all currently licensed personnel at Waterford 3 to retain their licenses as Entergy Operations, Inc. employees.

Yours very truly,

Gentlemen:

License Amendment No. 60 issued December 14, 1989, authorizes the transfer of control and performance of licensed activities for Waterford 3 from Louisiana Power & Light (LP&L) to Entergy Operations, Inc.
