BRUNSWICK STEAM ELECTRIC PLANT, UNIT NOS. 1 AND 2
DOCKET NOS. 50-325 & 50-324/LICENSE NOS. DPR-71 & DPR-62
CORE ALTERATIONS LICENSE AMENDMENT REQUEST
(NRC TAC NOS. M85162 & M85163)

Gentlemen:

The purpose of this letter is to submit to the NRC staff typed Technical Specification pages for the Core Alterations license amendment request for Carolina Power & Light Company's (CP&L) Brunswick Steam Electric Plant, Units 1 and 2.

On December 31, 1992, CP&L submitted a request for a license amendment regarding the definition of core alterations and the use of the terminology with respect to Technical Specification 3.9.3. The typed Technical Specification pages submitted herein supersede those submitted on December 31, 1992, and include two editorial corrections previously discussed with your staff. The first correction involves a typographical error on page 3/4 9-5 regarding an incorrect reference to another specification. The second correction involves clarification of the Applicability statement on page 3/4 9-5 to note OPERATIONAL CONDITION versus CONDITION.

Enclosure 1 provides the typed Technical Specification pages for Unit 1.

Enclosure 2 provides the typed Technical Specification pages for Unit 2.

Carolina Power & Light Company is providing, in accordance with 10 CFR 50.91(b), Mr. Dayne H. Brown of the State of North Carolina with a copy of this letter.

Please refer any questions regarding this submittal to Mr. W. Levis at (919) 457-2404.

Yours very truly,

Roy A. Anderson
