Subject: Arkansas Nuclear One - Unit 1
Docket No. 50-313
License No. DPR-51
ANO-1 Cycle 12 Core Operating Limits Report

Gentlemen:

Arkansas Nuclear One, Unit 1 (ANO-1) Technical Specification 6.12.3 requires the submittal of the Core Operating Limits Report (COLR) for each reload cycle. Attached is the COLR for ANO-1 Cycle 12. This completes the reporting requirement for the referenced specification.

Note that the approved revision number of Babcock & Wilcox (B&W) Topical Report BAW-10179P-A is identified in the COLR as August 1993. B&W utilizes the month and year in lieu of a revision number to identify revisions to their topical reports.

Should you have any questions regarding this submittal, please contact my staff.

Very truly yours,

JWY/nbm
