South Texas Project
Unit 1
Docket No. STN 50-498
Revision 1 to Licensee Event Report 93-005
Standby Diesel Generator 13 Failure to Start

Pursuant to 10CFR50.73, Houston Lighting & Power submits the attached revision to Unit 1 Licensee Event Report 93-005 regarding Standby Diesel Generator 13 failure to start on January 20, 1993 as required per Technical Specifications. This event did not have an adverse effect on the health and safety of the public.

This revision provides an analysis of the event considering Standby Diesel Generator 12, Standby Diesel Generator 13, and Auxiliary Feedwater Pump 14 being inoperable simultaneously for sixty one hours. It also updates corrective actions that have been or will be taken. Changes are indicated by revision bars.

The performance described by this Licensee Event Report clearly does not meet management's expectations. Efforts to improve station safety culture are ongoing.

If you should have any questions on this matter, please contact Mr. J. M. Pinzon at (512) 972-8027 or me at (512) 972-8664.
