Re: Public Notice - NRC Staff Proposes to Amend  
Operating License at Shoreham Nuclear Power  
Station, U.S.N.R.C. Docket No. 50-322-OLA

Dear Sir/Madam:

Pursuant to the above-captioned Public Notice, I hereby submit the Shoreham-Wading River Central School District and Scientists and Engineers for Secure Energy, Inc. Joint Request for Hearing, Notice of Intent to Intervene, Comment on Proposed (Preliminary) No Significant Hazards Considerations Determinations regarding, and Opposition to, approval of the application dated November 8, 1990 from the Long Island Lighting Company ("licensee") for an amendment to the operating license for the Shoreham Nuclear Power Station to allow the licensee to ship 137 fuel support castings and 12 core peripheral pieces to the low-level radioactive waste disposal repository at Barnwell, South Carolina.

Very truly yours,

James P. McGranery, Jr.
