Docket No. 52-001

Chet Poslusny, Senior Project Manager
Standardization Project Directorate
Associate Directorate for Advanced Reactors
and License Renewal
Office of the Nuclear Reactor Regulation

Subject: Submittal Supporting Accelerated ABWR Schedule -
Floppy Disks for Chapter 16, Amendment 33

Dear Chet:

Enclosed are two sets of floppy disks for SSAR Chapter 16,
Amendment 33, Technical Specifications:

1. One set of floppies is technical specifications with redlines and strikeouts indicating changes made as a result of GE's internal audit, and incorporation of Owners' Group changes to the STS NUREGs that have been approved by the NRC staff. The Owners' Group changes that were incorporated into the ABWR Technical Specifications are given in attached Table 1, and indicated on the affected pages.
2. One set of floppies labelled ABWR Chapter 16, Amendment 33, Technical Specifications. These are the files that are printed for Chapter 16 and exactly matches SSAR Chapter 16, Amendment 33. In addition, one floppy contains the Macintosh graphics made with CANVAS 3.5 that are incorporated into Chapter 16.

Please provide a copy of this transmittal to Mark Reinhart.

Sincerely,

160020
