Subject: Arkansas Nuclear One - Unit 2
Docket No. 50-368
License No. NPF-6
Additional Information Concerning Technical Specification Change
Request Per Generic Letter 88-16 (TAC No. M87066)

Gentlemen:

By letter dated July 22, 1993 (2CAN079301), Entergy Operations submitted a proposed Arkansas Nuclear One Unit 2 (ANO-2) Technical Specification change request to allow removal of cycle specific parameters from the ANO-2 Technical Specifications per Generic Letter 88-16. Subsequent to the submittal it was discovered that a page was omitted from the proposed Technical Specifications. Please find attached the proposed page 3/4 10-2 to be included with the proposed pages of the July 22, 1993, submittal. The no significant hazards consideration of the July 22, 1993, submittal remains unchanged by this information. Should you have any further questions, please feel free to contact my staff.

Very truly yours,

JWY/nbm
