Washington, DC 20555

Dear Sir:

Based on the conversation of 28 October between Mr. Marvin Mendonca and Mr. Jesse Arildsen (NRC) and Mr. Mark Moore (AFRRI), the Armed Forces Radiobiology Research Institute (license R-84, docket 50-170) reactor operator regualification program submittal of 06 August 1993 is modified as follows:

1. On page 2, section V.A., add a lecture on Plant Protection Systems and Facility Interlocks.
2. Beginning at the top of page 4, a new section is added to detail the recovery program required to reinstate an operator who has not satisfactorily completed on-the-job training requirements.

These changes are shown by a vertical line in the right margin of the attached proposed revision (completely reprinted). If you require further information, please contact the undersigned or Mr. Harry Spence at (301)295-1290.

Sincerely,

Mark Moore
Reactor Facility Director
