RE: University of Maryland (License # R-070, Docket # 50-166) Proposed Change

This letter is to confirm that I accept the proposed change to remove the "a" from our license condition 2.B.3. The condition should read:

3. Pursuant to the Act and 10 CFR Part 30, "Rules of General Applicability to Domestic Licensing of Byproduct Material," to receive, possess, and use in connection with operation of the facility, such byproduct material as may be produced by operation of the facility, which cannot be separated except for byproduct material produced in non-fueled reactor experiments.

I declare under penalty of perjury that the foregoing response is true and correct.

Sincerely,

Amber S. Johnson

Director, Nuclear Reactor and Radiation Facilities
