Subject: Out of scope work

Jeff,

I reviewed your request dated December 13, 2019 and need you to provide the following details.

1. Total amount of additional funding requested and breakdown for each task.
For example, you requested \$437 K for Enercon support for 3 tasks but did not provide individual costs for each task to justify the total request for \$437K.
2. Identify dollar amount of funds that will be used from work that was deferred.
Need to explain what was deferred and why. When it will be done and dollar amount that will be re-allocated to tasks needed now.

Dollar amounts from 1 (advanced) and 2 (used from deferred tasks) above should equal the total of funding needed now.

Call me on Thursday to discuss.

Thanks,

Ken
