

UNITED STATES  
NUCLEAR REGULATORY COMMISSION

REGION III  
2443 WARRENVILLE RD. SUITE 210  
LISLE, IL 60532-4352

FEB 28 2020

Terry L. Wilkins  
Radiation Safety Officer  
Mid American Inspection Services, Inc.  
P.O. Box 1427  
Gaylord, MI 49734

Dear Mr. Wilkins:

Enclosed is Amendment No. 14 to your NRC Materials License No. 21-26060-01 in accordance with your request. Please note that your license format has been changed based on our Web-Based Licensing (WBL) system.

In addition, based on the licensing policy and your provided information the following have been updated in your license: Items 6, 7, 8 and 9 regarding the licensed material and use; License Condition 10 regarding the NRC's jurisdiction at temporary job sites; License Condition 13 regarding the sealed source leak test and inventory requirements for sources authorized under 10 CFR Part 34 and Part 30; former License Conditions 16 and 17 were deleted because the requirements are already in the regulations 10 CFR parts 71 and 37, respectively; and former License Condition 19 was deleted because your licensed material does not meet the criteria to establish and maintain a decommissioning financial assurance as specified in 10 CFR 30.35.

Based on the licensed material and uses authorized in the license, the secondary program code 11210 for depleted uranium for shielding was deleted. However, a secondary program code 3124 was added for the QSA Global, Inc. (formerly Amersham) Model 773 calibrator for calibration of survey instrument which is authorized in your license. For your references, the program code descriptions can be found on the NRC's website at <https://www.nrc.gov/materials/miau/mat-toolkits.html> and the license annual fee schedules are in 10 CFR Part 171.16 which is published at <https://www.nrc.gov/reading-rm/doc-collections/cfr/part171/part171-0016.html>.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary

The enclosed document contains sensitive security-related information.  
When separated from this cover letter this letter is uncontrolled.

-2-

meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <https://www.nrc.gov/docs/ML1619/ML16196A237.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <https://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Frank P. D. Tran
