RE: Demand for Hearing on Indian Point License Transfer, NRC-2020-0021

Dear Sir or Madam Secretary:

As you are doubtless aware, the planned closure and decommissioning of the Indian Point nuclear facility affects at least 20 million people who reside within a fifty (50) mile radius of the IP nuclear facility.

Accordingly, in my view, the NRC needs to hold one or more regional adjudicatory hearings regarding the proposed license transfer; and these hearings need to be held where the public may testify as to the gross inappropriateness of the appointment of the Holtec corporation as decommissioning agent.

Very truly yours,
