General Comment

I just heard that a really irresponsible underhanded plan is in progress that will threaten public health and the environment for all time.

Do not pawn off responsibility for necessary action to untrustworthy entities when you know what the consequences will be.

Do your job, honor your commitments, and protect us.

Especially in these dark days of Trump where regulations for the protection of the public's health and environment are being undermined, reversing any progress made and escalating threats that are within your control to prevent.

I am watching with fear and hope. Don't disappoint me.
