Dear Sir or Madam:

GE Hitachi Nuclear Energy Americas, LLC (GEH) hereby provides a site-specific decommissioning cost estimate and decommissioning funding plan (DFP) pursuant to 10 CFR 50.75 for the Vallecitos Nuclear Center TR-1 GE Test Reactor (GETR) license (Reference 1).

The decommissioning cost estimate was reviewed and updated in 2019 by an independent third-party engineering firm. As a result of this update, the cost estimates primarily for waste inventory and disposal costs have been lowered and prior approval is requested to allow lowering the financial assurance surety bond amount.

The GETR cost estimate details are provided as an enclosure to this letter. Please note that the cost estimate contains both security related and sensitive proprietary information and is requested to be withheld from public disclosure in accordance with 10 CFR 2.390.

Please contact me at (910) 819-5950 if you have any questions.

Sincerely,

Scott P. Murray, Manager
